Dear Colleagues:

As you know, the Department of Justice recently announced that the Legal Orientation Program (LOP) would be paused while the Department reviewed the benefits and effectiveness of the program. The Attorney General announced yesterday that he had made the decision to allow the LOP to continue operating while the review is being conducted. As such, the LOP will continue to operate without interruption at this time. If any questions or concerns arise, please contact Steven Lang, Program Director, Office of Legal Access Programs at EOIR headquarters in Falls Church, Virginia.
